Upwork

Web Developer

During my tenure as a web developer at Upwork, I undertook impactful initiatives that amplified the company's digital presence and operational capabilities:

- Spearheaded the development of a responsive website for a Crypto-centric enterprise, resulting in a substantial upsurge in user engagement.
- Pioneered the conception and execution of a dedicated backend admin portal, tailored to seamlessly integrate new portfolios for Crypto companies.

My contributions not only enriched my hands-on experience in full stack development but also provided tangible value to Company's mission. This internship deepened my technical proficiency, collaborative prowess, and innovation in the dynamic realm of web development.

Global Age Kips

MEAN Stack Developer

As an intern full stack developer at Global Age Kips, I contributed to diverse web projects, collaborating with senior developers to enhance front-end and back-end functionalities.

Highlights include:

- Developed responsive front-end interfaces using HTML, CSS, and JavaScript.
- Integrated RESTful APIs to optimize data flow between components.
- Assisted in debugging, ensuring application functionality and performance.
- Collaborated on Git for version control and code collaboration.
- Acquired proficiency in JavaScript and Framework like Angular.
- Engaged in code reviews, adhering to coding standards and suggesting optimizations.

My internship at Global Age Kips deepened my understanding of full stack development, strengthened collaborative skills, and fueled my passion for pursuing a dynamic career in web development.
